

Time	Topic	Description
8:30 - 8:45a	Introductions	Nancy Bolz, Ed.D.   Area Director, Engagement Services   316.978.3507   <a href="mailto:nbolz@advanc-ed.org">nbolz@advanc-ed.org</a> Lori Franke-Hopkins, Ed.D.   Regional Director, Improvement Services   618.806.3868   <a href="mailto:lhopkins@advanc-ed.org">lhopkins@advanc-ed.org</a>
8:45 - 10:00a	Performance Standards	Continuous improvement, resulting in success for all learners, is the goal of every institution. While the Improvement Journey for each institution may look different, measures of quality for learning and instruction are ever present. The AdvancED Performance Standards support this cornerstone by providing a set of evaluative criteria that lays the foundation for improvement planning. The Standards are a powerful tool for transcending compliance, driving institutional transformation and accelerating improvement.
	eProve Surveys	Institutions should gather both perception and experience data to guide their journey of continuous improvement. AdvancED has created new surveys to assist you in this process. With eProve surveys, schools and school systems can build and administer customized stakeholder surveys to collect and report actionable data in a user-friendly, intuitive platform. Use AdvancED Certified Content surveys and benchmark your results across AdvancED's global network. Come learn about the technical features of eProve surveys.
10:15 - 11:30a	System/School Quality Factors	AdvancED's approach to improvement is not a one-size-fits-all solution. Rather, it is a customized journey based on a set of factors where all institutions have the potential for transformation by focusing on changing processes, practices and actions to drive improvement. This approach will produce the evidence, outcomes and successes institutions seek. The AdvancED Performance Standards continue to provide a foundation for institutions, but the School Quality Factors (SQF) will serve as the roadmap for continuous improvement.
	eleot Results	One of the key challenges confronting educators is measuring the effects of instruction on the learner. The eProve™ Effective Learning Environments Observation Tool® (eleot®) allows all stakeholders in a school or system to capture the learning that takes place in every classroom through the eyes of the student. This session explores how to use this dynamic tool to maximize student engagement and place the focus in your school or system on learner-centric environments.
11:30 - 12:45p	<b>Lunch on your own</b>	
12:45 - 2:00p	Preparing for the Engagement Review	Are you hosting an Engagement Review in the near future? Learn about the tools and resources AdvancED provides to not only prepare for the Engagement Review, but how to use these tools regularly to ensure a culture of continuous improvement. The AdvancED protocol will be explained, as well as strategies for gathering and evaluating relevant evidence for your review.
	Survey Results	The results are in... now what? eProve™ surveys results provide a glimpse into the perceptions of your school and school system stakeholders. Uncovering patterns allows for in-depth analysis of stakeholders' understandings, perceptions and needs. Join this session to learn how to drive continuous improvement by analyzing stakeholder feedback and harness the power of data with eProve surveys.
2:15 - 3:30p	Work Session	Preparing for your Engagement Review Work Session
	Continuous Improvement using eProve Strategies	The focus of the AdvancED Continuous Improvement System is to provide institutions with a continuous process of improvement that includes guidance and support. Accreditation has transitioned from an event-driven process to a continuous improvement process in which each institution has the opportunity to personalize and customize their experience based on their vision and long-term strategic objectives.
